Who hasn't wanted a meeting of friends over the years? Just one more chance to see Monica, Rachel, Phoebe, Chandler, Ross and Joey coming out of the ridiculously big coffee cups in Central Perk? Well, we're sorry to be the bearer of bad news, but it's not happening... never. Related: Why are your older friends the best that the creator of the program, Marta Kauffman, said on the press tour of the Association of Television Reviews: "it's not going to happen, it's never going to happen." She also said headlines and global news, "the program was about the moment in your life where your friends are your family. That time in your life, as soon as you get married and have children, is over. Change. It couldn't be that, and it would only once be unsatisfactory. So leave it alone. Leave it alone. So there you go. Could there be a better time to finally let our favorite characters go? In the meantime, we remember this infographic of each episode of friends. Related: The 10 friends every woman needs in her life, this content is created and maintained by a third party, and imported to this page to help users provide their email addresses. You may find more information about this and a similar content in Piano.io. I'm talking to my friend Patrick, and he told me about a little girl who recently went to dinner. He says she's hot, and that she's been sending a text message, "but what should I send a text message again? I ask you about the content of your texts: Are they cokes? She wants to see him again? Do they impose attractive selfies? "Not really," he says. "She says she's bored." My alarm bells start to leave. "He didn't get involved! I practically scream. "She's trying to put me in the friend zone!" He's confused, so I'll explain: "5 Girls send a text message to his friends and boyfriends when they get bored.You're really her friend, and you're not her boyfriend", though. But if you do boyfriend things, like cure her boredom or listen to her all, her. You will realize that she can have a sweet relationship, boyfriend-and without really having a boyfriend, and that is bad news for you. My explanation is not very eloquent, but my point is clear. â – "And Patrick, like most of the boys, wants to avoid the area of friends at all costs. But the beginning of a relationship can be complicated, according to the psychotherapist Vinita Mehta, Ph.D." "They are easy From crossing signals, including if someone is just a friend or wants to follow something else, "Mehta says. In so, there are steps that she can take to make sure she is clear, and that they do not fall into the trap of her friend's area. Here are four mistakes that tie them in the area of friends almost instantly, and how to avoid them. You do not make your intentions clearly in fact, it is even possible that you do not even know what you want to be more than friends. According to Thomas, the key to staying outside the area of friends is to clarify his intentions, and to make sure that all his communication "verbal, not verbal, written, etc." "It's what he wants, he does not mean that you have to say: Å ç ä, –" wants you to be my girlfriend ', at the same time, or all the time, "says Thomas." But instead of saying Å ç ä, – ", it is welcome to come," for example, I would love if they would have been found. "" Do not you want? Legue to her so aggressively that she feels overwhelmed by her attention, but it should always be obvious that you, in fact, pursues it as more than a friend. Å ç ä, – "DiÁfÁ"n: Å ç Å ç Å ç
